

# BML Payment gateway - Flyme

**Version :** 2

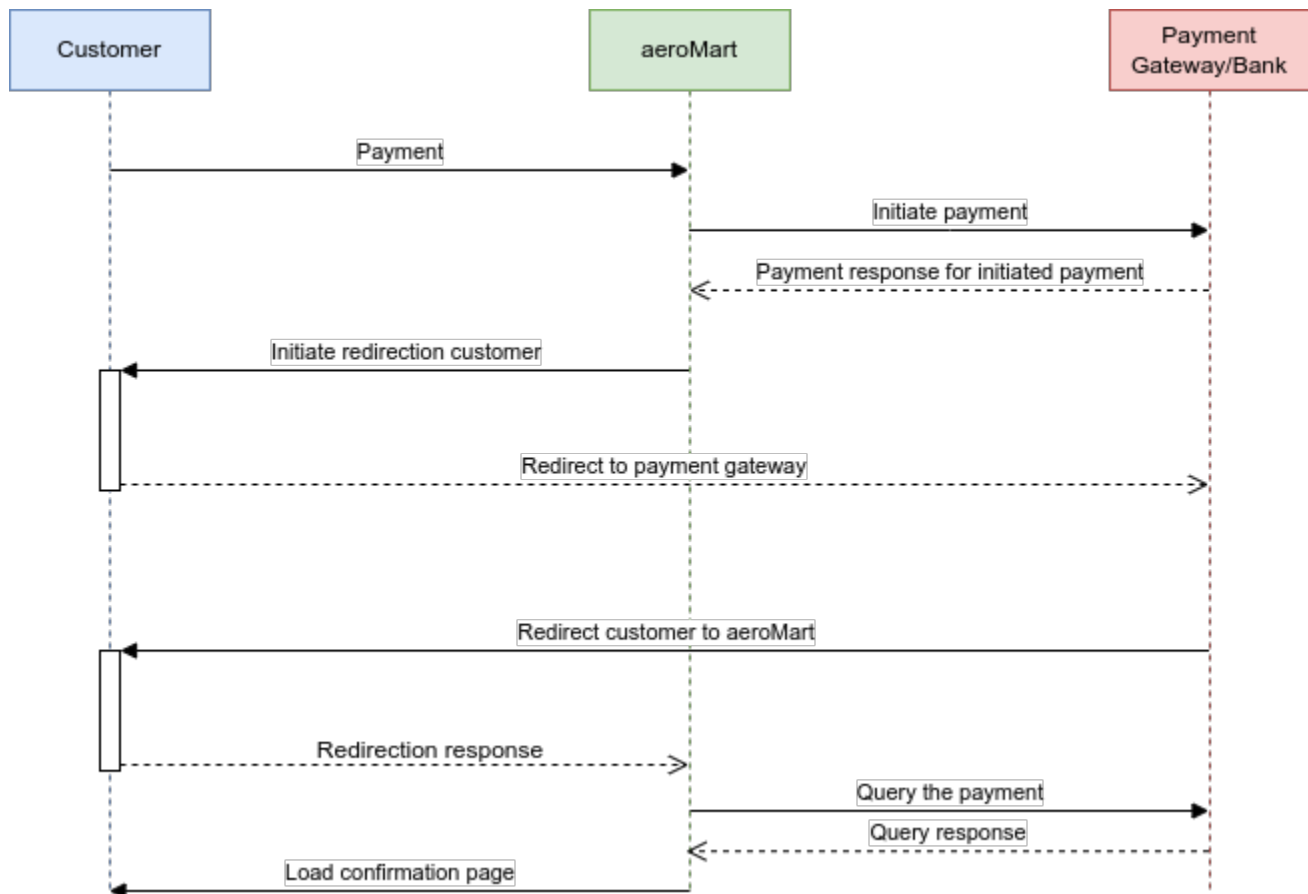

**Limitation :** Development will be done on aeroMart code 008.0

**Description :** BML is upgraded the payment gateway version 2 which is not compatible with version 1. Currently flyme uses the BML payment gateway.

## Payment flow

1. The customer clicks the pay button on IBE
2. aeroMart backend sends the payment initiation request to payment gateway
3. aeroMart redirects the customer to payment gateway
4. aeroMart process the redirection response

## High Level Diagram

Implementation details : [PAY-1548](#) - Flyme payment gateway integration **IN TESTING**
